

VALLEY F 200

TECHNICAL DATA SHEET

MATERIAL / APPLICATION

The VALLEY F200 is used to collect rainwater flowing into the valley area. It is made of bitumen material, reinforced with cellulosic fibers and thermosetting resin. The composite is colored with inorganic pigments.

Product design provides excellent waterproofing characteristics, with 3 corrugated barriers on each side and double embossment at overlaps.

Material used and colour range offer a perfect match for Onduline Roofing systems.

The product is universal and can also be used with other roofing materials.

Benefits: Ready for use : no preparation on site and no folding equipment needed - Lightweight and safe : easy to carry and manipulate - Easy to cut with a knife or saw.

TECHNICAL CHARACTERISTICS

Length	2000 mm
Width	432 mm
Corrugation height	20 mm
Thickness	2,8 mm
Weight	2,6 kg
Proportion of bitumen	> 40%

PACKAGING

5 colors : Red, Brown, Green, Black, Terracotta

Pack : 8 pcs

Pallet : 20 packs

HANDLING AND STORAGE

The product should be protected from direct sunlight and be stored dry.

INSTALLATION

The valley should be supported by wooden boards. Position the valley, and fix it with flat-head standard nails. Once the valley is covered with the roofing elements, fix the sheets/tiles on top of their corrugations, into the supporting batten.

When supporting batten is not available, a possible alternative is to fix the sheets/tiles diagonally through the 2nd corrugation of the valley.

A universal ventilated filler can be added, to prevent birds or other animals to enter into the roof space.

The waterproofing of surrounding details, especially the connexion to ridge, should be secured by using our Flashing Band.

WARRANTY

Watertightness is guaranteed for 15 years.

All the claims will be considered with respect to application recommendations and warrantee conditions issued by Onduline company.

This TDS was made based on currently available information. Product was made in accordance with above mentioned parameters but producer/distributor can't anticipate any future change as well as change of regulations. It is the consumer's responsibility to use the product in accordance to producer/distributor recommendations and his needs. All the claims will be considered with respect to application recommendations issued by Onduline company.
